RE: API Specification Q1 9<sup>th</sup> Edition Addendum 2 Auditing Requirements

Please be advised that API will begin to audit **API Specification Q1 9<sup>th</sup> Edition to Addendum 2** requirements effective March 4, 2019.

Additionally, please be advised that the **API Specification Q1 9<sup>th</sup> Edition Addendum 2, Specification for Quality Management System Requirements for Manufacturing Organizations for the Petroleum and Natural Gas Industry**, will be effective June 1, 2019. This Addendum represents a change in Supply Chain requirements as it applies to the oil and gas industry.

Accordingly, API has developed the following plan to transition participants in the API Monogram and APIQR Programs with the scope now including both Addendum 1 and Addendum 2:

- **March 4, 2019 to May 31, 2019:** API will conduct all audits to API Specification Q1 9<sup>th</sup> edition including Addendum 2, however, any findings raised against new requirements will be categorized as “Concerns” and no additional follow-up will be required regarding the status of corrective action on those findings.
- **June 1, 2019:** All API Monogram Licensees and APIQR Specification Q1 registered Organizations must conform to the requirements of API Spec Q1, 9<sup>th</sup> Edition Addendum 2. All audits conducted during and after June 1, 2019 will be to API Spec Q1, 9<sup>th</sup> Edition Addendums 1 and 2 and conformance to all requirements in this document is mandatory.

Thank you for your continued dedication and support in maintaining the highest quality and product standards throughout the oil and gas industry.

Together, we can [Power Past Impossible!](#)
