RE: **Specification for Threading and Gauging of Rotary Shouldered Thread
          Connections.
          ANSI/API Specification 7-2 (Formerly in Spec 7) First Edition, June 2008
          Effective Date: December 1, 2008**

Dear Colleague,

It is our pleasure to announce that API Specification 7-2, *Specification for Threading and
Gauging of Rotary Shouldered Thread Connections*, First Edition, was issued in June 2008.
This edition of API Spec 7-2 is an identical adoption of ISO 10424-2: 2007, Petroleum and
natural gas industries — Rotary drilling equipment—Part 2: Threading and gauging of
rotary shouldered thread connection. Furthermore, these requirements were formerly
addressed in API Spec 7.

Annex K of this American National Standard addresses requirements of the API
Monogram Program

Please note the publication date of June 2008 with an effective implementation date of
December 1, 2008.
