TPCP Announcement 002-06

Subject: New TPCP Requirements: RP-2D Operation & Maintenance of Offshore Cranes Courses

Dear Training Provider:

The TPCP Subcommittee determined that training providers cannot issue course completion cards for both RP-2D Crane Operations and RP-2D Rigging courses if the provider has only one API certified RP-2D course. In order to issue a course completion card for both courses, each course must be API TPCP certified.

To minimize any inconvenience this clarification may cause, API will grandfather new RP-2D Crane Operations and RP-2D Rigging courses applied for by training providers with an existing RP-2D course. In other words, training providers may complete a TPCP application for a new RP-2D Crane Operations or RP-2D Rigging course, which will not be audited until the next scheduled audit. **Applications for the new course must be received by API no later than May 17, 2006 in order to be grandfathered into the TPCP program.**

Please contact me if you have questions or need assistance. Call 202-682-8490 or email me at mcclairenf@api.org.

Very truly yours,

Felix McClairen
Manager of Operations, TPCP
American Petroleum Institute
