TO: API Monogram & APIQR Program Participants

RE: Advisory 16, *API Repair & Remanufacture Program*, and Other Updated Advisories

The American Petroleum Institute (API) today announced the launch of the new API Repair and Remanufacture Program. Organizations that repair or remanufacture products in accordance with designated API standards can become licensed under this program and apply the API Repair and Remanufacture mark to the equipment.

The program recognizes organizations that provide repair and remanufacture activities at their own facilities as well as in the field or at customer sites. All applicants and licensed organizations are subject to annual API audits to ensure continued conformance with program requirements.

API Standard 16AR, 2nd edition, *Repair and Remanufacture of Drill-through Equipment*, is the first repair and remanufacture standard available for licensing in the program.

The API certification program has published Advisory 16, *API Repair and Remanufacture Program*. This advisory identifies requirements for all licensees and applicants under the new API Repair and Remanufacture Program.

Additionally, API has updated the following advisories that apply to all Monogram, APIQR, and API Repair and Remanufacture Program participants:

- Advisory 1: API Procedures Concerning Communications with Third Parties
- Advisory 3: Recognition and Authority of Management Representative and Use of Consultants
- Advisory 7: Code of Conduct for API Monogram Licensees, API Repair and Remanufacture Program Licensees, APIQR Registered Organizations and Program Applicants
- Advisory 9: Recognition and Authority of Published Standards
- Advisory 10: Invoices and Payment Terms for Monogram/API Repair and Remanufacture/APIQR Invoices
- Advisory 13: Supplementary Requirements for Design and Manufacture of a Product for Organizations Applying for a New Monogram/API Repair and Remanufacture Program License or for the Addition of Products on an Existing License

The API Advisory documents can be found at [API Monogram & APIQR Program Documents/Advisories](#).

For any questions or concerns related to this notification, please contact us at www.api.org/ContactCertification.

Your continued support of and participation in the Certification Programs are greatly appreciated.

Sincerely,

Kevin Ferrick
