

# Oil and Natural Gas Stimulate Louisiana

## Economic and Job Growth

Oil and natural gas are driving the U.S. economy through a major energy boom and that boom is rippling through the economy of Louisiana, supporting business activity across the state. This finding grows out of a new American Petroleum Institute survey of domestic oil and natural gas vendors,<sup>1</sup> which offers a glimpse into the job and business creation engine that is the current oil and natural gas industry. The survey shows that at least 1,711 businesses, spread across all six of Louisiana's congressional districts, are part of the larger oil and natural gas supply chain.

The survey's snapshot of state-by-state activity reinforces the impressive level of industry success throughout the country that is documented in a recent PriceWaterhouseCoopers study conducted for the American Petroleum Institute.<sup>2</sup> The study found that the oil and natural gas industry in Louisiana supports some 412,600 jobs, which is 16.2 percent of the state's total employment. The amount of Louisiana labor income supported by the oil and natural gas industry comes to \$24.2 billion annually. That's 19.4 percent of the state's total labor income.

Another way in which the oil and gas industry benefits the people of Louisiana, in addition to total employment and labor

income, is in terms of salary.<sup>3</sup> While the average annual salary in Louisiana across all industries and sectors is \$44,332, the average salary in the oil and gas industry (excluding gas stations) is very significantly higher—\$87,929 annually. Overall the industry supports \$73.9 billion of the Louisiana economy. That's 35.5 percent of the state's total economic activity.

Louisiana ranks 8th in oil and 2nd in natural gas production.<sup>4</sup> That makes it one of the nation's top energy-producing states.

Louisiana particularly benefits from the production of oil and natural gas from shales and so-called "tight formations," energy development that uses the proven

### AVERAGE ANNUAL SALARY COMPARISON

1. American Petroleum Institute, "API Onshore Oil and Gas Vendor Identification Survey," Washington, D.C., 2014. The survey was distributed to API members in January 2014 to collect information for the period October 2012 to September 2013. Included are companies that provide goods and services for onshore oil and natural gas development, whether as operators, contractors, service companies, suppliers, or vendors.

2. PriceWaterhouseCoopers, "Economic Impacts of the Oil and Natural Gas Industry on the U.S. Economy in 2011," Washington, D.C., July 2013. Prepared for API using the IMPLAN input-output modeling system, based on 2011 U.S. Bureau of Economic Analysis data.

3. Information cited in this paragraph comes from the Bureau of Labor Statistics, Quarterly Census of Employment and Wages (preliminary data for 2013 accessed July 2014); and PriceWaterhouseCoopers, "The Economic Impacts of the Oil and Natural Gas Industry on the U.S. Economy: Employment, Labor Income and Value Added," 7/12/13 (based on 2012 IMPLAN database).

4. EIA, "Rankings: Crude Oil Production, April 2014 (thousand barrels)," accessed 7/31/2014. <http://www.eia.gov/state/ranking/?sid=UA#/series/46>. EIA, "Rankings: Natural Gas Marketed Production, 2012 (million cubic feet)," accessed 7/31/2014. <http://www.eia.gov/state/rankings/?sid=US#/series/47>.

### Vendor Profile<sup>7</sup>

#### Safety Management Systems, a division of Acadian Companies

Safety Management Systems, LLC (SMS) helps clients and partners in the oil and natural gas industry achieve an injury-free work environment by providing a variety of specialty-skilled personnel solutions. These include remote paramedics, on-site safety technicians, industrial safety training services, and Health, Safety, and the Environment (HSE) consultants to the upstream, midstream, refinery, and petrochemical markets. Currently, the primary responsibilities of Acadian's remote paramedics are on-site health care and pre-hospital emergency medical care.

In 2013 alone, the Safety Management Systems Training Academy trained more than 34,000 workers and SMS employees performed more than 13,000 hours of additional training. SMS can help reduce injury rates, improve training compliance, and assure successful pass rates of all contractor and compliance audits. "We aim to make the industry as a whole a safer place."

Safety Management Systems' parent company, Acadian, has more than 40 years of medical response experience. Acadian Ambulance, Acadian Monitoring Services, and Acadian Air Med are sister divisions.

engineering technologies of hydraulic fracturing, or "fracking," and horizontal drilling. Total jobs supported by these activities in Louisiana reached 78,968 in 2012. That job total is projected to climb to 97,418 in 2020 and to 150,903 in 2035.<sup>5</sup>

And Americans, including the people of

Louisiana, get it. A random interactive telephone poll of 1,014 registered voters across the country, conducted on behalf of the American Petroleum Institute, found that 77 percent of Americans, regardless of party affiliation, support increased production of oil and natural gas resources located in the United States.<sup>6</sup>
